Extra-Curricular Activities Consent Form

The Burton Primary School OSHC service recognises that extra-curricular activities can provide a valuable option for children to participate in activities that support their growth, development and interests. The service will work with families to support the access of such activities. Examples of such activities have included sport practices, sports clinics, working with a tutor and music lessons.

The legislative framework requires that written consent must be supplied to the OSHC prior to any such arrangement commencing.

Extra-Curricular process:

1. Families are required to give written permission for their child to participate in an extra-curricular activity. Permission is given by completing a consent form that is available from the service or emailing the Director outlining the activity, name and contact details of the activities, contact person including a time and duration of the activity
2. Students come from school to OSHC to sign in first
3. If they have time, join in with snack time if not, your child can choose a snack and will be kept until they return
4. Students will have identification that advises the instructor to contact an OSHC Educator if there is a problem or injury
5. If the activity is being held in the school grounds the outside OSHC Educator will be mindful of their participation in the event and direct the child back to the service when it is finished
6. If an event is cancelled, it would be appreciated if parents inform the OSHC service

Child's Name	
Details of the activity	
Who is in charge of this activity?	
Dates that the activity will be scheduled	
Time of the activity	

I consent to my child participating in the above activity
